“Deeper Discovery was one of the most valuable learning experiences I’ve had in the last ten years. It has helped me play to my strengths, manage my weaknesses and make good decisions. Most importantly it has enabled me to really understand why I’m in business and what my personal brand should be.”

How it works

Using Archetypes of Discovery as a lens (e.g. Judge, Entertainer, Lover, Warrior), individuals and teams embark upon a journey of improved self-understanding.

Building on the simple and accessible Insights Discovery colour energy model, Insights Deeper Discovery is a deep, insightful and thought-provoking experience for individuals and teams. As with Insights Discovery, participants complete a short online evaluator. One of the outputs is a 13 page personality profile, which explores their hopes and fears, and the legacy they wish to leave.

This natural extension of Insights Discovery uses the new Deeper Discovery Wheel to help participants discover their potential in an engaging and memorable way and apply their learning to the workplace.
